

Why Evolve?: The Gains from Evolution (Paperback)

By Jt

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English. Brand new Book. WHY EVOLVE? What is the fundamental cause of evolution? Widely accepted modern theory of evolution lists down mutation (of sex cells), natural selection, limited size of population, partial breeding, non random mating, difference in the number of offspring as well as migration as the seven conditions which are contributing to the smooth conduct of evolution. What embellishments has nature instituted, to facilitate all (or any) of these conditions, similar to pollination, seed dispersal etc existing in plant life? Reflecting further, one could be reaching an important conclusion - the male is a poor performer as far as the essential male function is concerned. As he is terrified of 'performing', which he will have to if he retires to his chamber, he would want to delay that event as much as possible. This explains why, for instance, male animals play with their prey for quite some time before killing it or letting it escape, unlike their female counterparts whose masterly grip on all activities of life is a legion. Having already acquainted themselves with this problem as far as animal life go, one would have become...
